

FUND UPDATE

FOR THE QUARTER ENDED 30 SEPTEMBER 2022

MACQUARIE

Macquarie Investment Funds

Macquarie Emerging Markets Shares Fund¹

This fund update was first made publicly available on: 31 October 2022

What is the purpose of this update?

This document tells you how the Macquarie Emerging Markets Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Macquarie Asset Management Public Investments (NZ) Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund invests in shares listed on share markets in emerging economies. The portfolio is managed using multiple managers and is diversified by region, manager and investment approaches.

Environmental, Social and Governance characteristics are integrated into the underlying investment managers' investment processes.

The fund's exposure to global shares is through investment in the Future Directions Emerging Markets Share Fund which invests in shares listed on share markets of emerging market economies through multiple managers. By actively managing its exposure to each underlying investment manager, the Future Directions Emerging Markets Share Fund is able to respond to changes in market themes which can drive share markets.

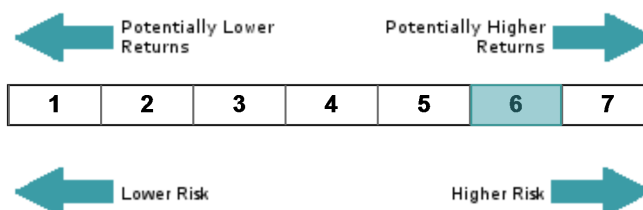

The fund's foreign currency exposures are not normally hedged back to New Zealand dollars.

The performance objective of the fund is to provide a Gross Return (see note 2 below) above the MSCI Emerging Market ex Tobacco Index with net dividends reinvested on a rolling three to five year basis.

Total value of the fund	NZ\$4,986,401
The date the fund started	01 November 2007

What are the risks of investing?

Risk indicator for the Macquarie Emerging Markets Shares Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the 5 year period to 30 September 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

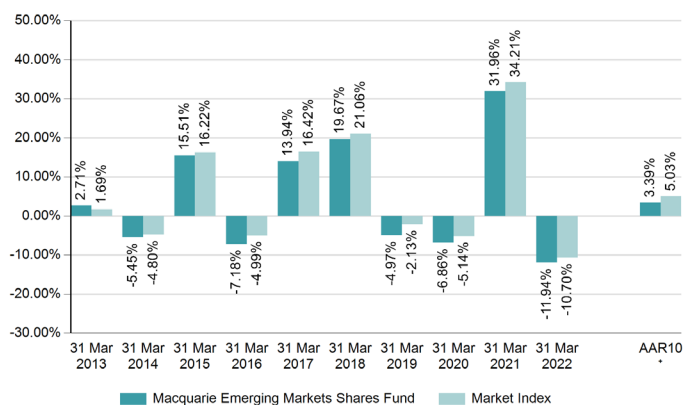

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return³ (after deductions for charges and tax)	0.67%	-14.79%
Annual return³ (after deductions for charges but before tax)	1.59%	-14.26%
Market index annual return³ (reflects no deduction for charges and tax)	3.17%	-12.36%

The market index annual return is based on the MSCI Emerging Market ex Tobacco Index with net dividends reinvested (in NZD). Additional information about the market index is available on the offer register at www.companiesoffice.govt.nz/disclose.

Annual Return Graph⁴

* Average Annual Return for the last 10 years to 30 September 2022

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2022.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Macquarie Emerging Markets Shares Fund are charged fund charges. In the year to 31 March 2022 these were:

	% of net asset value
Total fund charges	1.69%
Which are made up of:	
Total management and administration charges	1.65%
Including:	
Manager's basic fee (excluding GST)	1.35%
Other management and administration charges (including GST)	0.30%
Total performance-based fees*	0.04%

*The performance fees paid or rebated vary from year to year depending on the outperformance of the underlying funds. The Fees in the PDS are based on investment managers' average positive outperformance over the last five years. However, the performance fees in this fund update are based on actual fees paid (or rebated) for the year to 31 March 2022.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Macquarie Investment Funds Global Shares Funds on the offer register at www.companiesoffice.govt.nz/disclose for more information about those fees.

Example of how this applies to an investor⁵

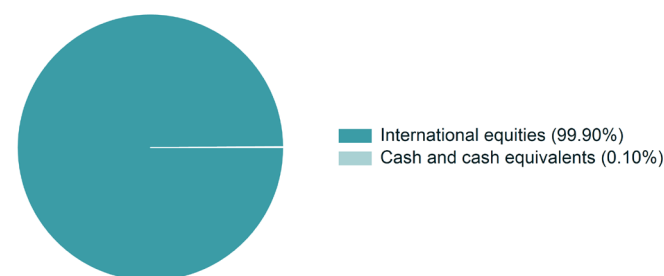

Small differences in fees and charges can have a big impact on your investment over the long term.

Jeff had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Jeff incurred a loss after fund charges were deducted of -\$1,120 (that is -11.20% of his initial \$10,000). This gives Jeff a total loss after tax of -\$1,194 for the year.

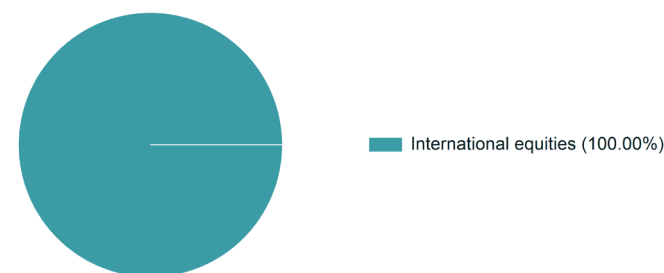

What does the fund invest in?

This shows the types of assets that the fund invests in.

Further information

You can also obtain this information, the PDS for the Macquarie Investment Funds Global Shares Funds, and some additional information from the offer register at www.companiesoffice.govt.nz/disclose.

Notes

1. In March 2022, Macquarie Asset Management Holdings Pty Limited completed the acquisition of the AMP Capital Global Equities and Fixed Income business from AMP Group Holdings Limited. Prior to that acquisition, Macquarie Asset Management Public Investments (NZ) Limited was known as AMP Investment Management (N.Z.) Limited and the Macquarie NZ Share Emerging Markets Shares Fund was known as the AMP Capital Emerging Markets Shares Fund.
2. Gross Return is the return before the deduction of tax, expenses and fees and assumes all income is reinvested.
3. These returns are for the periods ending 30 September 2022.
4. The bar graph shows fund returns after the deduction of fees and tax, however, the market index returns are shown before any fees or tax are deducted.
5. The returns and tax calculations used in this example are the actual fund returns and tax charges (or rebates) for the year ended 31 March 2022. Net of tax returns can be more than gross of tax returns where, due to the fund's tax position, it receives a tax rebate rather than paying tax.
